Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner requested that a change be made to the language of claim 1 to reflect that moisture "enhances" rather than "permits" the removal of tobacco smoke substances to more accurately reflect the language in instant specification on page 26. Also, it was requested that claims 26-42 be cancelled - as drawn to a non-elected invention - and a request was made to charge the deposit account for a 1 month extension of time, all of which is to place the Application in condition for allowance. Mr. Serio agreed, and such is reflected in the attached Examiner's Amendment.
